A & B THREE POINT HITCH ATTACHMENTS

DISC HARROWS

A&B offers several models of disc harrows to provide the results required by the customer. Heavier models will provide better penetration and fewer passes. For best results size the disc harrow to tractor horsepower and 3 point hitch lift capacity. C&B stocks machines with cut-out (notched) disc blades on the front gangs, and plain disc blades on rear gangs. Notched blades cut through sod and trash better than plain, and plain blades provide a more level finish. Disc harrows can be custom ordered with any combination required.

Note: Item number reflects the number of discs, diameter of the discs, and disc spacing front and rear.

Example: EH201877 EH = Eagle Harrow, 20 = number of discs, 18 = diameter of discs, 77 = 7 ½" disc spacing front and rear.

GARDEN HARROWS

ITEMNUMBER	DESCRIPTION	WEIGHT	PRICE
GH121477	Garden Harrow 4'4" For Compact Cat I 15-25HP	258	$2,325.00
