

3pt Side Mast & Skid Steer Post Pounders

Features and Benefits:

- Self contained hydraulics on both the 3pt and skid steer model
- Both models are free standing when not hooked up
- Skid steer comes with a universal mounting plate for easy hookup
- 3pt model comes standard with CAT II hookup and runs off 540 PTO with optional 1000 PTO
- Ability to slide the mast out up to 16" to ensure accurate post placement
- Drives up to a 12" diameter post up to a height of 12'
- 750 pound hammer ensures you can drive a post in any soil conditions
