Weight	905 lbs.
Rows	12 adjustable
Distance between rows:	6" at 12 rows 12" at 6 rows 24" at 3 rows
Recommended working speed	2.5 - 4 MPH
Working Width	5.9'

TIME-SAVING AND USER FRIENDLY

Developed as a multifunctional planter, it handles seeds in many sizes from small, clover, alfalfa seeds, to corn and beans. Faunamaster seeder has the ability to lay out fertilizer while planting.

It is easy to adjust seed flow through the handlebar. A seed table is provided that shows seed settings.

EFFECTIVE AND GENTLE

Ideal for food-plots, after-planting in horse pastures, or for planting in areas where normal planting equipment is too big. It can be used in parks and gardens, to plant flowers or herbs. The compact size, combined with an ATV, ensures it leaves minimal marks. Can be used in tilled soil. If it is used for no-till planting, we recommend depths not exceed 1/2".

FM180 - Our biggest model with 12 adjustable seeding rows.
