HAMMER

Concrete Breaker

Proven Design Increased Possibilities

Delivers up to 82,000 lbs. of impact force
with each cycle

Breaks up to 9" thick reinforced concrete

Operates on any skid-steer with 12-30
GPM* without additional setup

Smooth operation with no shock back to
the vehicle

Anti-dry fire feature prevents unnecessary
firing and improves durability of the
machine

Less maintenance with drop hammer
design

CB40 breaker kit available to convert
any Hammer post driver into a concrete
breaker

1-Year Warranty

*Breaker will still operate on machines with less than 12
GPM, but with fewer strokes per minute

Established in 1910, DANUSER has been family owned and operated by four generations. We have manufactured auger systems since the mid-1940's. With over 70 years of design and manufacturing experience, our machines have dug millions of holes. Today our commitment to our customer remains to design and build products that are the benchmark of quality, reliability, and longevity. In the words of our founder K.B. Danuser, "Good enough won't do - it must be right."

DANUSER manufactures several attachments for various equipment, serving several industries worldwide. Please visit www.danuser.com to see our full line of attachments.

Danuser reserves the right to make changes in design, specifications, and prices without notice and without incurring any obligation relating to such changes.
