

NO-TILL SEED DRILL

This No-Till Seed Drill enables you to sow grazing pastures, cover crops, and food plots with precision and efficiency. Our implement has Category 1 and Category 2 spacing, along with quick-hitch compatibility, making it suitable for a variety of tractors. A 5' and 7' option is available to accommodate your sowing needs.

3 Seed Boxes: The two large seed bins have separate controls, allowing operators to set individual flow rates for seeds like oats, soybeans, wheat, and chufa. Turnip, radish, clover, and winter peas work well in the third, 1.1-bushel bin, designed specifically for the optimal disbursement of smaller seeds.

Fluted Seed Coulters: Our fluted coulters design promotes continuous seed flow, optimal placement, and uniform seed distribution.

Effortless Seed Metering: The advanced seed metering mechanism permits infinite adjustments between the lowest and highest flow-rate settings so operators can quickly adapt to various sowing conditions.

Convenient Walkboard: The walkboard allows for easy seed bin observation and effortless refilling.

Offset Disc Opener: The offset design of the disc opener reduces residue plugging during field operations, ensuring smooth and uninterrupted sowing.

	5'	7'
3PT HITCH	CAT 1&2 (QUICK HITCH COMPATIBLE)	
NO. OF OPENERS	9	11
NO-TILL COULTERS	9-16" FLUTED	11-16" FLUTED
OPENER DEPTH RANGE	0.25-2.5"	
SEED WIDTH SPACING	7"	
CLOSING	ALIGNED SINGLE CULTIPACKER ROLLER	
DRIVE SYSTEM	GROUND TIRE CHAIN DRIVE	
NO. OF SEED BINS	2-LARGE 1-SMALL	
ADJUSTMENT	EACH BOX INDIVIDUAL, CONTINUOUS FLOW STYLE	
SEED BIN CAPACITY	4.5 BUSHEL X 2 LARGE BOX, 1.1 BUSHEL SMALL	
SEEDING WIDTH	63"	77"
OVERALL WIDTH	81"	96"
OVERALL LENGTH	63"	
OVERALL HEIGHT	49"	
WEIGHT (APPROX.)	1740 LBS.	1905 LBS.
TRACTOR HP	38-65	46-85
