G SERIES - NO TILL SEED DRILL

FREIGHT: Genesis 3 - \$500 / Genesis 5 - \$600 / Genesis 8 & 10 - \$750

May not be distributed in all areas through Cummings & Bricker

The G-Series No-Till drill has been developed with the hunter and wildlife manager in mind. It is a true, no-till drill that will plant a variety of seeds and blends into the ground, even in the toughest soil conditions.

The tempered cutting discs are spaced at 7.5 inches apart. The discs slice into the soil, allowing the seeding mechanism to plant the seeds into the created slits. The solid, rubber packing wheels trail behind the discs to close up the soil. The G-Series will provide outstanding seed to soil contact even when cutting through standing vegetation.

WEIGHT BAR

Suitcase weights can be added if more weight is needed based on your soil conditions

INFINITELY VARIABLE GEARBOX

With the turn of a knob, adjust the seeding rate for any seed. No gears, chains, or sprockets!

WHITE SEED METERING ELEMENT

Easier to see when cleaning the machine after use.

STEEL DRIVE WHEEL

Ensures the drive wheel does not slip no matter the ground condition.

INDIVIDUAL BOLT-ON ELEMENT STRIPS

Designed for ease of maintenance.

DIGITAL ACREAGE COUNTER

Keep track of how many acres you plant on individual plots, your entire acreage, and the lifetime acreage planted by the machine.

G SERIES - NO TILL SEED DRILL

Native Seed Box

ITEMNUMBER	DESCRIPTION	PRICE
G10304	Native Seed Box For G3 Models	\$5,847.00
G10503	Native Seed Box For G5 Models	\$6,116.00
G10803	Native Seed Box For G8 Models	\$12,297.00

G Series Options

ADDITIONAL FREIGHT: Genesis Models w/Wheel Kit Option - Genesis 3, 5 & 8-\$200 / Genesis 10-\$250

Benefits Of Adding A SMALL SEED BOX

The applied rate is more accurate when seeds are grouped together based on seed size. Designed with a focus on smaller seeds and their traditional seeding rates, the small seed box increases accuracy by separating smaller seeds from larger ones with a smaller version of the seeding element. It also allows these smaller seeds to be planted at a shallower depth.

Small Seed Box Installation ADD \$500

UTVKIT Installation ADD \$700

Front Cutters Installation ADD \$200

Wheel Kit Installation ADD \$500

ITEMNUMBER	DESCRIPTION	WEIGHT	PRICE

M SERIES - NO TILL SEED DRILL

FREIGHT: Genesis 3 - \$500 / Genesis 5 - \$600 / Genesis 8 & 10 - \$750

ITEMNUMBER	DESCRIPTION	WEIGHT	PRICE
M1050	60" 3PH Seed Drill - 8 Planting Rows w/ 7.5" Spacing, 7.63 Bushel Hopper	1135	\$11,119.00

M SERIES SEED DRILLS

This is the ideal tool for food plots and small hobby farmers who want to invest wisely in no till technology. The M Series offers similar features of the G Series with precise seed placement and effective soil management due to the weight and double disc coulters.

- 60" working width
- ½" to 2" Working Depth (per ground conditions)
- 7.5" Spacing Between Rows
- 8 Row, Independent Cutting Units
- 7.63 Bushel Hopper Capacity
- Cultipack Style Rear Roller
- Cat 1 & 2 3 Point Hitch
- Weight Bar On The Front Of The Machine
- Storage Legs

CRIMPER ROLLER

FREIGHT: Goliath 6 - \$400 / Goliath 8 - \$450 / Goliath 10 - \$500

ITEMNUMBER	DESCRIPTION	WEIGHT	PRICE
CR2040	48" Crop Crimper / Tow Behind	579	\$6,230.00
CR2060	72" Crop Crimper	1145	\$6,845.00
CR2080	96" Crop Crimper	1450	\$8,295.00
CR2010	126" Crop Crimper	1750	\$9,645.00

The PH Outdoors Crimper is the perfect tool for wildlife managers wanting to mechanically kill or terminate cover crops without the use of expensive chemicals.

Using the crimper will preserve soil moisture, prevent weed growth and the terminated cover crop adds a layer of organic, slow release fertilizer at the surface of the soil where new crops can absorb the nutrients. The crimper rolls over the cover crop, pressing it down, while the fins will crimp the cover crop plant in multiple places. This effectively cuts off the circulatory system of the plant, causing it to die.

The crimper also lays the cover crop down flat on the ground, acting as a 'weed protection mat' and prevents sunlight from drying the soil. When the crimper is used in addition to the G-Series no till drill, wildlife managers can plant into their crimped and rolled cover crop, saving time, fuel, soil compaction and will ultimately have enhanced soil.

- Manage cover crops without chemicals, sprays or disking/tilling ground.
- Reduce the need for herbicides in traditional no till food plots.
- Boost the mulching aspects of cover crops.
- Maximize weed suppression by rolling cover crops.
- Preserves soil moisture by reducing evaporation.
- More efficient way to incorporate cover crop nutrients into the top layer of soil.
- Ground driven & designed to prevent vibrations & bouncing.

Working Width	Dimensions LxWxH	Hitch Type	Quick Hitch Compatible	Weight	Approx. weight w/drum filled with water	Recommended Tractor Size

FAUNAMASTER NO TILL SEED DRILL

ITEMNUMBER	DESCRIPTION	WEIGHT	PRICE
FM105	41" Faunamaster Seed Drill - 7 Adjustable Seed Rows,Wiring Kit	644	\$7,635.00
FM180	71" Faunamaster Seed Drill - 12 Adjustable Seed Rows,Wiring Kit	904	\$9,491.00

PH Outdoor Seeder

By Faunamaster

This multifunctional planter handles seeds in many sizes from small, clover, alfalfa seeds, to corn and beans.

- Sowing depths from 0-80 mm
- Lay out fertilizer while planting
- Seed flow adjustable with handlebar lever
- Seed table with settings for clover, alfalfa, beans, kale and corn
- Tilling depths up to 10mm
- Used with ATV/UTV, or by a 3-point hitch on CAT 1 tractor
- Built-in 12v actuator
- 200mm ground clearance when raised

EFFECTIVE AND GENTLE

Seeders are ideal for hunter's food-plots, for after-planting in horse fold, or just for planting in areas where normal planter equipment is too big. It can be used in parks and gardens, to plant flowers or herbs. The compact size ensures that it leaves minimal marks in the existing area.

FAUNAMASTER ATV/UTV SPRAYER

ITEMNUMBER	DESCRIPTION	PRICE
FMS70	70 Liter ATV/UTV Sprayer - 9' 10" Boom, Wiring Kit	\$2,531.00

Sprayer 70 is carefully designed for professional use on quad and UTVs. The spray boom is specially designed to resist damage by sliding off obstacles through a spring-loaded system, reducing the risk of damage to both the sprayer and its surroundings.

HIGH QUALITY COMPONENTS

Equipped with precision spray nozzles, this sprayer guarantees optimal performance. The boom can be adjusted in height as needed and folds for easy transportation.

EFFICIENT MIXING FUNCTION

A built-in mixing function in the tank ensures constant and uniform mixing of the spray liquid during use.

- Professional Sprayer for ATV/UTV with a robust and flexible design
- Sprayer 70 is the ideal solution for the professional user who demands reliability, efficiency, and economic advantage in one product.

Model 70

Power Supply	12V, 6.0 AMP (MAX 12 AMP Pump)
Pressure	120 PSI / 8.3 BAR
Spray Tank Capacity	18 Gallon
Clean Water Tank	2.5 gallon for hand washing
Spray Boom	9'10", adjustable with side selection
Hose Reel	32'9" with spray lance

FAUNAMASTER DISC HARROW

ITEMNUMBER	DESCRIPTION	WEIGHT	PRICE
FMDH140	55" Trailed Disc Harrow, Wiring Kit	878	\$6,411.00

Model DH140 Harrow is equipped with 5 harrow tines, as well as 5 goose feet which can be changed according to need and work task. The DH140 also has 2 axles with disc harrows. At the back, there is a spring rake that ensures a nice and clean result, in the newly created seed bed. The working depth can be set individually, so that the harrow can work separately with goose feet, harrow tines and or disc plates.

- Harrow DH140 is the ultimate harrow for ATV/UTV and fits as well Cat. 1 tractors
- Harrow DH140 can be used for weed cleaning in existing seedbeds or in newly planted forest cultures, for the establishment of new seedbeds, for biodiversity areas, covercrops, wild flowers or areas that needs to be ready for seeding.

Model 70

Measure LxWxH	11'8" x7'x3'11"
Weight	877 lbs
Working Wide	55"
Recommended Working Speed	10-14
Working Depth	4"
