

SNOW WING

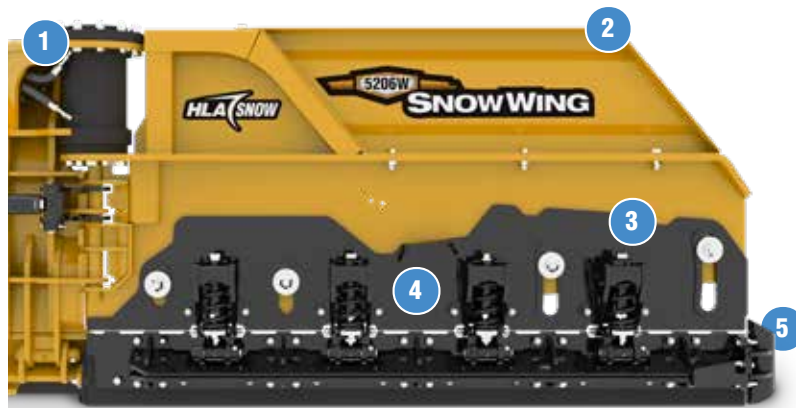

5206W

EdgeFlex Technology now from Tip to Tip.

Comes standard with 6 foot wings equipped with cutting edge trip and high torque rotary actuators that provide infinite positioning thru 180°.

SNOWWINGS

The 5206W Series SnowWing is sized for ag tractors and wheel loaders from 25,000 to 40,000 lbs. operating weight. Featuring 72" long adjustable wings with spring trip protection, powered by patented high-torque rotary actuators, it combines functionality of both angle blades and box pushers, to provide unparalleled efficiency and productivity for commercial contractors.

5206W Shown with standard cutting edge.

5206W Features & Options

1 Six Foot Wings

Equipped with six foot wings, the 5206 series reaches even further, requiring fewer passes to finish each job.

3 Floating Endplate Edge

Floating endplate edges follow the surface contour for confident snow clearing.

1 180° Rotary Actuators

These rugged units come from the construction industry and deliver up to 103,000 in-lb. of torque at 3000 PSI to hold the wings in place.

4 Spring Trip Wing Edge

Six foot wings come standard with spring trip edge. This system is available with both the standard or the optional Edge Flex cutting edge systems.

2 Contour Wing

When the upper wing tip is removed, the wing contours increase clearance to scrape under the fifth wheel pin of trailers and hard to reach areas.

5 Curb Runner

A replaceable curb runner is incorporated into the wing trip edge.

Model #	Approx. Weight	Clearing Width Closed	Clearing Width Open	Road Width (Angled)	Snow Clearing Width (Angled)	Mouldboard Height	Max Operating Weight
SB5206W1022	5,320 lbs.	120"	264"	137"	223"	42"	40,000 lbs.
SB5206W1224	5,390 lbs.	144"	288"	157"	243"	42"	40,000 lbs.

When selected at time of order, optional Edge Flex cutting edges are installed on the main mouldboard and both wings, providing true one pass clearing across the entire width of the blade.

5206W EdgeFlex	Weight (lbs.)
SB5206WEF21022	5,455
SB5206WEF21224	5,540

*Same dimensions as standard models.
