

ROTEX M SERIES POWER HARROW

15-45 HP

Working Widths From
35" to 59"

The Rotex M is a medium duty rotary harrow and is ideal for special crops in soft terrain. It tills the ground gently and allows excellent water drainage.

- 3PT, CAT I
- Cast iron gear box 540 RPM
- Blades gear driven (in oil bath)
- Two blades per rotor
- 7" Depth
- Self adjusting side protection
- Mounting points for optional roller, leveling blade or seeder

ROTEX H SERIES POWER HARROW

40-100 HP

Working Widths From
67" to 98"

The Rotex H power harrows finely break up the soil, refining and evenly distributing it over the entire working width to create a perfect seed bed.

- 3PT, CAT II
- Cast iron gear box 540 RPM
- Blades gear driven (in oil bath)
- Two blades per rotor
- 8" Depth
- Self adjusting side protection
- Mounting points for optional roller, leveling blade or seeder

YELLOWSTONE STONE BURIER

20-50 HP

Working Widths From
37" to 67"

The Yellowstone Stone Burier is suitable for any terrain with stones from 1 to 4" in diameter. It prepares the terrain for seeding and can be equipped with a seeder for one-pass operation.

- 3PT, CAT I or II
- Cast iron gear box, 540 RPM
- Rotor with 6 tines per flange
- Adjustable screen roller and leveling blade

683 - 963 lbs.

ROTEX/YELLOWSTONE STONE BURIER OPTIONS

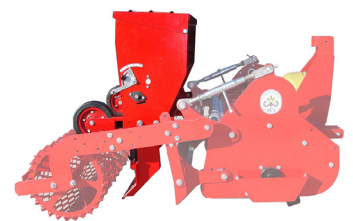

Screen Roller: option for all Rotex models

Cage Roller: option for all Rotex models

Grass Seeder: for grass and grass like seed. Option for all Rotex and Yellowstone models

Pro Grass Seeder: for grass wheat, corn, peas, hemp, sorghum, alfalfa and onions. Option for all Rotex and Yellowstone models

FLASH SERIES ROTARY TILLER

12-25 HP

Working Widths From
34" to 50"
257 - 308 lbs.

The Flash is designed for the small or weekend farmer. It has two gear boxes, protected by an easy to replace shear bolt. This design is not only reliable but assures that the tiller tine penetration is uniform and consistent.

- 3PT, CAT I with side shift
- Oil bath gear drive central transmission with shear bolt protection
- Rotor with 4 tines per flange
- Adjustable skids

URT-HF SERIES ROTARY TILLER

40-70 HP

Working Widths From
80" to 87"
763 - 794 lbs.

The URT series rotary tiller is a strong professional machine and is suitable for all soil types.

- 3PT, CAT I or II
- 540 RPM PTO with slip clutch
- #100 chain drive
- Rotor with 6 tines per flange
- Adjustable skids

HRA SERIES ROTARY TILLER

50-95 HP

Working Widths From
90" to 100"
1331 - 1430 lbs.

The HRA series rotary tiller is a high capacity professional tiller with excellent performance even at high speeds.

- 3PT, CAT I or II
- Cast iron gearbox, 540 RPM
- #100 chain drive
- Rotor with 6 tines per flange
- Adjustable skids

SPECIALTY EQUIPMENT

REAR DISCHARGE FINISHING MOWER

Rear Discharge Finishing Mowers are ideal for large lawns, golf courses, parks and athletic fields. Achieving a highly professional cut is easy with a finishing mower and its four pivoting wheels allow seamless operation over uneven terrain.

- 15-70 HP
- Cutting widths from 48" to 93"
- 3PT, CAT I
- 1" to 4" cutting height
- Hitch flotation front to rear and side to side
- Four 12" semi pneumatic tires
- Central lubrication system

POTATO DIGGERS

Potato Diggers are designed for small to medium fields. Oscillating sieves allow potatoes to be separated from the soil. Available in rear (DM50) or side discharge (DM100).

- 3PT, CAT I
- Adjustable depth control
- Oscillating sieve
