

New Utility Grapple: GRS Series

- Designed for use on skid steers with limited clearance for grapple arms
- Factory installed only; regular GR Grapples are still available as generic field install kits

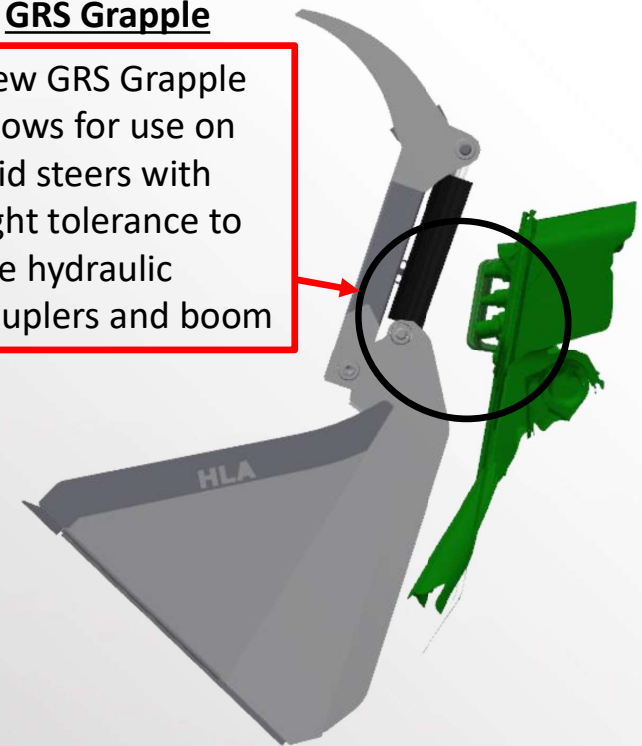

Standard GR Grapple

Cylinder linkage gives the GR Grapple more travel and larger opening

GRS Grapple

New GRS Grapple allows for use on skid steers with tight tolerance to the hydraulic couplers and boom

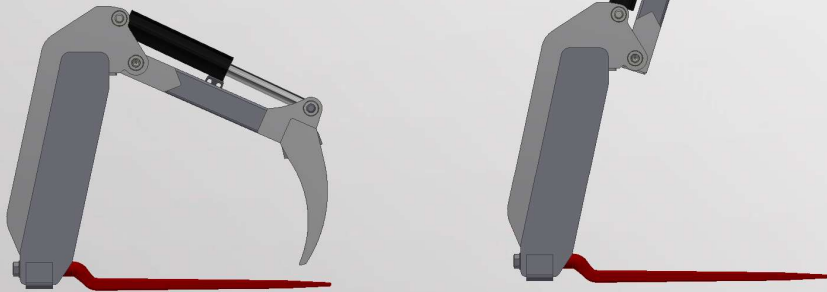

New Utility Grapple: GRS Series

Available on:

MFE Series Manure Fork

SFRC and SFR Series Stone Fork

SB and SBLP Series Skid Steer Buckets
